THE SENATE OF THE UNITED STATES.-The personal and political notices of the United States Senators, now in session at Washington, which we gave in the Horald of yesterday, will doubtless attract much attention. The first point of observation with regard to this body is, the amount of talent existing among the members, compared with the Senate of other days. It may be safely asserted, we think, that the character of the Senate is not deteriorating. If there are none to be found in the present Senate to supply the places of Webster, Clay, Calhoun, and Benton, it will be found that the average amount of talent is kept up in the whole number, and that the proportion of really inferior men is small among the Senators. On running over the personal notices which we have given, it is curious to observe the course of political training most of the Senators have undergone, in their respective States, by publie services of various kinds, before they have been considered qualified for election to the Senate.-These services have been executive, legislative, judicial, or military, according to circumstances.

The leadingmen as debaters in the Senate, as at present organized, leaving the free soilers out of the question, will doubtless be Cass, Hunter, Mason, Soule, Atherton, Butler, Douglas, Rusk and Houston, on the democratic side-with Clayton, Everett, Pearce, Dixon, Jones, Badger, Truman Smith and Gever, on that of the whigs. Gen. Cass and Gen. Dodge are the two oldest men in the Senate, being over seventy years of age. Most of the others have been born during the present century, and the average ages of the forty-five Senators whose years are known is about fifty.

With regard to nativity, the old States still preserve the preponderance in furnishing national legislators, no less than thirty-mine out of forty-nine Senators whose birthplaces are known having been born in the old thirteen States, viz:-In the New England States 14, in New York 4, Pennsylvania lina 2, South Carolina 4 and Georgia 2. Of the others, there were born in Tennessee 2, Indiana 2, Ohio 1, Missouri 1, Ireland 1, France 1, West Indies 2. Ethnologically considered, the fifty-six Senators, (there being six vacancies,) may be classed as follows: - Of Anglo-Saxon origin 39, Scotch 5, Welch 6, Irish 1, French 3, Spanish 1, German 1-

Total 56. One of the most striking points in the list of Senators, is the vast preponderance of gentlemen of the legal profession. A foreigner, in looking at the occupations in private life of the executive and le gislative branches of our government, might well suppose that the constitution provided that lawyers should always have the preference, on the same principle that the charter of the Mechanics' Bank, of this city, provides that a majority of the Board of Directors shall be mechanics. No less than fortyone of the United States Senators are, or have been lawyers, leaving fifteen for all other occupations.-Of these last, the medical profession have two; the mechanics, two; the military, the planters, and retired gentlemen, the remainder—the merchants not having one of their own number to represent them, Truly, the legal profession is the favored class with the people of this country-N. SINGULAR PHENOMENON.-A severe snow storm accompanied by lightning occurred in a part of Maine on the 13th ult. A correspondent of the Gardiner (Me.) Fountain, writing from Bass Harbor, Mt. Desert, describes the storm, as it appeared there, as awful and sublime. A thunder cloud passed over the place, which, for terrific appearance, exceeded anything ever witnesed there .-The correspondent adds:

The lightning was of a purple color, and sometimes appeared like balls of fire, coming in through windows and doors, and down the channeys, while the houses trembled and shook to their very found-

Mrs. E. Holden was near a window, winding up a clock; a ball of fire came in through the window and struck her band, which benumbed her hand and arm. She then, with all in the house, retreated into the entry. Another flash succeeded and in the room from which they had retired, resembled a volume of fire, whirling round and produeing a crackling noise. A similar appearance of fire was seen, and crackling noises were heard in a large number of the houses. Some who heard the noise say that it sounded like breaking glass,

Capt. Maurice Rich had his light extinguished, and his wife was injured. He got his wife on to a bed, and found a match; at that instant another flash came and ignited the match, and threw him several feet backwards. John L. Martin received so severe a shock that he could not speak for a long

A great many persons were slightly injured .-Some were struck in the feet, some in the eye; while others were electrized, some powerfully and some lightly. But what was very singular, not a person was killed or seriously injured, or a building damaged; but a cluster of trees, within a few rods of two dwelling houses, were not thus fortunate.- | The electic fluid came down among them-tawere left hanging by their roots from the tops of the adjacent trees, roots up and tops down.

The lightning, after entering the earth to the depth of several feet, and for a space some eight or ten feet in diameter, divided into four different directions. One course which it took led through the open land, making a chasm to the depth of several feet, and continued its march unobstructed by the solid frozen ground, or any other substance to the distance of 370 feet; lifting, overturning, and throwing out junks of frozen earth, some of which were 10 or 11 feet long, by 4 feet wide, and hurling at a distance rocks, stones, and roots. The power here displayed was truly awful, and had it fallen on a building, it would have thrown it, with its

inmates, into ten thousand fragments. I understand that in Southwest Harbor and Northeast Harbor (in this island) several vessels. had their masts rent in pieces; one had some plank torn from her, and one man was knocked down, but

THE WHOLESALE TRADE.—The facilities opening up for communication with Nashville from the surrounding country, are beginning to make this place the great point of travel and trade. Already does the wholesale trade begin to assume an importance as to almost rival in amount of business done Louisville, Cincinnati and some cities on the seaboard,-Within two years this department of trade has increased fifty per cent, and is steadily and rapidly advancing. This is not strange nor improbable. Our merchants make direct importations from Europe and the American manufactories. Their house rents and clerk's hire, together with the accommodations afforded them for the cheap transportation of their heavy stooks of goods through the various avenues of transit, enable them to compete successfully with our more northern neighbors. In purchasing from this market the country merchant saves time, insurance on his goods, and the various annoyances incident to getting his goods to market. Besides these advantages the dealer from the country gets his articles much cheaper, and by encouraging home trade helps to build up a department of commerce which will be eventually to his advantage .-The more our jobbers are patronized the more will it be in their power to sell goods at a less profit.

Our trade is now large and prosperous. Prices ruling comparatively low in consequence of our most extensive dealers having made their selections in advance of the eastern jobbers, and in view to the large advance in prices of dry goods. About 1st of January we learn that returning retail dealers from the Atlantic cities reserved a portion of their purchases to be made in Nashville-having | Governor, been unable to do any better in those markets than can be done here. So long as our extensive and enterprising jobbing houses continue to demonstrate their capacity to compete with the eastern jobbers in styles, quantity and prices, this will be an attractive market. We advise merchants to give this market an examination before going elsewhere to make their purchases.

Territory of Washington.-A new territory with this designation was created, and provisions made for its organization, by an act of Congress approved on the 2nd instant. It comprises that part of Oregon which lies north of the middle of the main channel of Columbia river, to where it crosses the forty-sixth degree of latitude, and thence along said degree of latitude, to the top of the Rocky Mountains. The land occupied by missionary stations, not exceeding six hundred and forty acres to each, together with the improvements, is expressly reserved and confirmed to the missionary societies respectively which established the same. Stations that were so occupied prior to the passage of the act organizing the territory of Oregon are also confirmed to the societies which established them, even though they have since been abandoned.

HENDERSON AND NASHVILLE RAMEOAD,-There can now be no doubt, says the Henderson (Kv.) Banner, of the cerly commencement of this great work. We are greatly pleased to see that the arduous labors of the able President of the Company, 2. Maryland 4, Delaware 2, Virginia 5, North Caro- | Col. E. H. Hopkins, have not been fruitless. In the week past he has been speaking and laboring in Henderson, and considerable additional stock has been subscribed, which fact gives us hopes that Henderson will not long remain behind her sister counties in the enterprize.

The Providence bark Corsair arrived from Mozambique, bringing Captown papers of Jan. 4th. The mail of the 4th contains an account of a severe fight, in which six thousand Basutor horsemen

were routed by about one thousand British. The chief, Morbest, had agreed to deliver ten thousand head of eattle and one thousand horses as a fine for depredations he had committed. He failed to comply with the engagements, and the governor advanced into his territory to seize the cattle. > Cincinnati is becoming one of the most disorderly places in the Union. Last Sunday seems to have been a general festival of fisticuffs, free fights, firemen's riots and all manner of ungodliness. The following account from the Nanpariel of Tues-

day, is a specimen: Another Riot.—Sunday afternoon, as several of No. 8 Fire Company were drinking in a coffeehouse on the corner of Twelfth and Vine streets, they were attacked by a party of No. 5 Fire Company. Stones and clubs flew thick and fast, striking and injuring several on each side. Those of the Eights then drew their revolvers and commenced firing upon the Fives, shooting two of the company one a boy, in the arm, and the other in the side. The Eights then retreated down Twelfth street to Western Row, chased by the Fives, both companies firing pistols and hurling stones and clubs at | Harrison; Lewis Shepherd, Peter Parkerson, EG Boyd, G every step. The arrival of a posse of police under the direction of Capt. Couch and Marshal Ruffin dispersed the rioters. Several balls entered the dwelling houses on Twelfth street, but fortunately

no one was injured. Washington, March 9 .- It is rumored that Mr. Buchanan has received the appointment of Minister to the court of St. James.

APOLOGY OF THE CAPTAIN GENERAL OF CUBA TO ENGLAND.-We have already mentioned the fact that the British ship of the line Cumberland recently visited Havana, with a formal demand upon Gen. Cancdo for satisfaction and apology for the outrages committed lately upon the persons of British subjects in the Island of Cuba, and for the insults to the British Government in the persons of H. B. M. Consul General, and the commander of the shin-ofwar Vestal and also for the late connivance on the part of the Spanish officers in the slave-trading operations in Cuba. The New Orleans Picagune

Gen, Canedo assured the British commander that it had never been his intention to insult the officers of the British Government, or to reflect upon their conduct in any way; and that immediate examination should be made into the claims of British subjects, and ample reparation should be made for any injury that might have resulted to them through unjust proceedings.

The Piccopine also states it was rumored in Havana that a British Commissioner was on his way there to demand the immediate manumission of every African that had been imported into that island since 1821, in contravention of the terms of the treaty with England. This rumor was causing great consternation in Havana, as it was supposed it would manumit three-fourths of the slaves in the

The British Admiral had sent orders to Bermuda for so ne more English ships-of-war to proceed to Havana, and the permanent English naval force there was to be largely increased. An effort is to be made to stop the slave trade by direct intimidation of the principal authorities of the Island.

A. O. P. Nicholson, -A correspondent of the Nashville Union is in favor of the nomination of this distinguished gentleman, by the democracy of Tennessee, as a candidate for Governor at the approaching election. The name of Mr. Nicholson would be a tower of strength in the hour of battle. No man has a stronger hold upon the affections of the democracy of the State. They admire him for . his talents, esteem him for his virtues, and love him for his social qualities. He is a public man without reproach, a politician without stain, and a Statesman without selfishness. We have not, however, looked upon him as being in the canvass, and the first choice of our people has been given in favor of another eminent citizen of Maury .- Tennessee Dem-

Washington Iyems. - Washington, March 4 .-The address of Gen. Pierce to-day, is the subject of conversation among all parties at the hotels tonight. Every body is delighted with it except the Barnburners. Even the whigs praise it. Gen. Cass says it is a good old fogy speech, and Judge Douglass says it is of the Young America school. It would seem that Gen. Pierce's observations on

foreign relations are not only not an empty flourish, but have a deep import. He recently received a telegraph message, from a reliable source, in reference to the Black Warrior affair. So you need not be surprised to hear soon that he will take an important step in reference to the Cuban affairs. The resident intends to manage the foreign relations

It is curious that Fillmore and Pierce not only changed places to day in a political sense, but exchanged quarters-Mr. Fillmore taking the rooms that Gen. Pierce left at Willard's.

It is considered a courteous act on the part of Mr. Fillmore to have written Gen. Pierce to try to accompany him in the procession to the capitol.

upon Secretary Dobbin, who accompanied them to the Presidential mansion. After exchanging compliments and congratulations, the officers, joined by the chiefs of the bureaus, repaired to ex-President Fillmore's rooms at Willard's Hotel, and took a friendly leave of him. The President has nominated and the Senate has confirmed, Silas R. Hobbie First Assistant Postmaster General, and restored Chas, Eames, late as-

J. H. CUEREY, Furniture Manufacturer and Dealer. WOULD respectfully inform his friends and the public generally that he is prepared to furnish public generally that he is prepared to furnish hem with every article of furniture from a common to the finest article kept in this city. His manufacturing is not surpassed by any one in the South in point of material and workmanship-to test which he asks your patronage. He has also a good assortment of imported furniture, all of which is offered at extremely low prices for cash-his motto being

short profits to make quick sales. Ordered work, repairing and varnishing old furniture, done at the shortest notice, and upon very reasonable terms with despatch. I am also pre pared to fill all orders for matrasses, the common shuck kep stantly on hand. Being the only one in the city having a right to manufacture O'Neal's Atmospheric Leaver Churn, it being unequalled by any, I would just say that a supply can always be found at my rooms on College street.

Undertaking. - All orders for Collins can be filled in very short notice, as I keep every descrip-ion always in readiness, which will be furnished at lower rates than usual in this city. Having good bearses, gentle horses, and a careful driver, with my personal attention in this department of my business, I hope to merit your favors. Orders can be left at my sale room on College street, No. 25 where myself or clerk can always be found, both night and day, to attend to such orders. Thankful for past favors, I hope by strict attention to business to merita confinuance of J. H. CURKEY, the same. No. 25, College street. march12
